Aanya Sharma

Computer Science and Engineering | CGPA 8.8 | Graduation 2026

SUMMARY

Computer science student interested in AI methods, neural computation and backend engineering.

SKILLS

Python, ML, DL, TensorFlow, SQL, JavaScript, React

PROJECTS

Neural Network Classifier — Built a neural network classifier for image categories using Python and TensorFlow. Prepared datasets, trained models and evaluated precision and recall. Technologies: Python, TensorFlow, Neural Networks.

Placement Insights Dashboard — Developed a React dashboard with REST API integration and SQL-backed analytics. Technologies: React, REST APIs, SQL.

EXPERIENCE

Student Developer, Campus Innovation Lab. Worked on model experimentation, API integration and technical documentation.

EDUCATION

B.Tech in Computer Science and Engineering, expected 2026. CGPA 8.8/10.

Synthetic demonstration resume for CampusLink PS03. Not a real applicant record.
