Meera Nair

Computer Science and Engineering | CGPA 8.0 | Graduation 2027

SUMMARY

Data analytics student focused on data cleaning, statistical reasoning, visualization and practical forecasting.

SKILLS

Python, SQL, Pandas, Statistics, Tableau, Excel, Data Analysis

PROJECTS

Retail Demand Analysis — Cleaned retail records with Pandas, queried sales data using SQL and visualized trends in Tableau. Technologies: Python, Pandas, SQL, Tableau.

Neural Network Demand Prediction — Built neural networks to forecast seasonal demand from historical retail data and compared predicted patterns with observed sales. Technologies: Python, Neural Networks, Statistics.

EXPERIENCE

Data Analyst Volunteer, Campus Research Group. Prepared reproducible notebooks and charts.

EDUCATION

B.Tech in Computer Science and Engineering, expected 2027. CGPA 8.0/10.

Synthetic demonstration resume for CampusLink PS03. Not a real applicant record.
